

The Life Protector Plan
Global Benefits Europe

Your guide to individual life protection

The simple approach to life protection

When you work hard to provide security for the people you care about, life insurance should be an essential part of your long-term financial planning.

Protecting against premature death means providing for your dependants, making your family's future more secure.

With your needs in mind, Global Benefits Europe has developed "**The Life Protector**", a specialist life insurance plan designed for Expatriates living and working abroad in non hazardous occupations.

For most people, their major concern in the event of a premature death is that their family will be able to maintain their lifestyle, that the children's education will not suffer and that any loans and debts are repaid.

The Life Protector can help protect you and your family in the way you need it to, giving you peace of mind, providing financial security for the people you leave behind.

Once you're insured with the Life Protector, your basic life insurance requirements are taken care of, leaving you to concentrate on your career and family commitments without undue worry about the future.

It is generally acknowledged that you should have insurance in place of at least 5 times your salary, so if you earn US\$50,000 per year your cover should be a up to US\$250,000 to ensure that you are fully protected.

However if you are covering yourself against a loan of US\$150,000 then that may be all you will require.

How the Life Protector Plan works

Cover for Life

Life Protector Plan lets you choose the cash lump sum your family would need to protect their financial future without you. This could be any amount up to a maximum of US\$250,000 or the equivalent in GBP£ or €.

If you die as the result of an illness or accident whilst your plan is in force, your beneficiaries will receive your Life Protector Plan lump sum benefit.

As this is a pure life insurance plan, there is no investment return. That's why the Life Protector Plan offers top-quality life insurance at an affordable price.

You can renew your Life Protector Plan every year until you reach the sooner of your retirement or 70th birthday.

*Protecting the people
you care about!*

Double Protection for Accidental Death

Double Protection for Accidental Death

Accidental Death Dismemberment Benefit can be either added on to your life cover or bought as a separate insurance cover on its own

If you die or are dismembered as the result of an accident, a cash lump sum will be paid to your beneficiaries, if you also have Life Protector Life cover, the payment is in addition to that benefit.

Accidental Death & Dismemberment	Proportion Sum Insured
1. Accidental Death	100%
2. Total and irrecoverable loss of sight of both eyes	100%
3. Total and irrecoverable loss of sight of one eye	50%
4. Loss of two limbs	100%
5. Loss of one limb	50%
6. Total and irrecoverable loss of sight of one eye and loss of one limb	100%

The amount of additional accident benefit must not exceed the amount of your Life Plan benefit.

Global Benefits Europe can also offer:

- Higher Sum Assured
- Income Protection
- War & Terror
- Kidnap and Ransom
- Term Assurance

For any advise on these products, please contact your financial advisor.
